

**Shing Chit Alvin Yu**  
*Hong Kong*  
*Student*  
*University of Hong Kong*

A GCI Fellow in 2015, Alvin is a final year Arts and Law double degree student at the University of Hong Kong. After graduating, he plans to obtain a Postgraduate Certificate in Laws and qualify as a solicitor.

The GCI Summit gave Alvin the tools and words to think about effecting social change in local communities. When approached with the opportunity to develop navigational aid for the visually impaired in 2018, he was able to put these tools to good use; he has since been a core member of a machine learning startup, working to close the Digital Divide for visually impaired people in Hong Kong. This hands-on experience has fuelled Alvin's passion for social entrepreneurship.

Alvin is an avid Wing Chun practitioner, and currently teaches it as an assistant instructor at his university residential college. Playing basketball and online gaming are also his go-to hobbies.
